PROFESSIONAL SUMMARY

Full Stack Software Developer with a Bachelor of Engineering in Computer Science and postgraduate training in Full Stack Software Development. Hands-on experience building web and backend applications using C#, ASP.NET, Java, Spring Boot, Python, JavaScript, SQL Server, MySQL and REST APIs. Experienced with CRUD operations, JWT authentication, database design, API testing, and frontend-backend integration. Currently expanding expertise in Generative AI, Large Language Models (LLMs), AI Agents, Agentic AI, Prompt Engineering and RAG.

TECHNICAL SKILLS

Languages: Python, Java, C#, JavaScript, SQL, HTML, CSS

Web & Backend: ASP.NET, ASP.NET MVC, Spring Boot, Tornado, REST APIs, CRUD, Maven

Databases: SQL Server, MySQL, Database Design, Database Management

AI: Generative AI, LLMs, AI Agents, Agentic AI, Prompt Engineering, RAG, Image Generation

Development: OOP, SDLC, Agile, API Testing, GitHub, Jira, Team Collaboration

Cloud: Microsoft 365, Microsoft Azure fundamentals

PROFESSIONAL EXPERIENCE

.NET Intern | MNET Academy

Hyderabad, Telangana, India | Aug 2023 – Nov 2023

- Developed application features using C# and ASP.NET and integrated frontend interfaces with backend functionality.
- Designed and managed SQL Server databases and implemented CRUD operations for student and attendance records.
- Built user interfaces using HTML, CSS and JavaScript while applying object-oriented programming and database management concepts.
- Gained hands-on experience across full-stack application development and the software development lifecycle.

Web Development Intern | Internshala

Hyderabad, Telangana, India | Oct 2021 – Dec 2021

- Developed web application features using HTML, CSS and JavaScript with database management and frontend-backend integration.
- Contributed to the PG Life Housing Project, a web application designed to help students find suitable accommodation.
- Improved practical understanding of web development, database management and application testing.

EDUCATION

Postgraduate Degree – Full Stack Software Development | Lambton College

Ottawa, Ontario | May 2024 – Dec 2025 | Grade: 3.65 / 4.0

Bachelor of Engineering – Computer Science | Osmania University

Hyderabad, Telangana, India | Jul 2018 – May 2022 | Grade: 8.13 / 10

SELECTED PROJECTS

Banking Management System

Technologies: Python, Tornado, REST API, JWT, Database

- Developed a banking management application in a five-member team during the Full Stack Software Development program.
- Implemented user registration and login, JWT-based authentication, session management and API testing.
- Built digital wallet management, balance tracking, deposits, withdrawals, fund transfers and transaction history.

Employee Management System

Technologies: C#, ASP.NET, ASP.NET MVC, SQL Server, HTML, CSS, JavaScript

- Built a full-stack application for managing employee information through database-connected web interfaces.
- Implemented employee record management and CRUD operations with frontend-backend integration.

Movie Booking System

Technologies: Java, Spring Boot, Maven, Database

- Developed a backend application for movie selection and booking using Java and Spring Boot.
- Implemented user management, movie selection, booking functionality and database integration.

PG Life Housing Project

Technologies: HTML, CSS, JavaScript, Database

- Developed a web-based housing application to help students search for suitable accommodation.
- Worked on frontend development, database management and frontend-backend integration.

Fog-Centric Secure Cloud Storage Scheme

Technologies: Java, Cloud Computing, Fog Computing, Cloud Security

- Contributed to a team research/project focused on secure data management and cloud storage security using fog computing concepts.
- Supported system design, research and analysis activities.

Student Attendance System

Technologies: ASP.NET, SQL Server, HTML, CSS, JavaScript, Jira

- Developed a web-based attendance system for tracking attendance, generating reports and managing student records.
- Worked with a development team using Agile practices and Jira; contributed to user testing and feedback-driven improvements.

CERTIFICATIONS & TRAINING

AI Master Class — Dhruv Rathee Academy (Jan 2026)

Full Stack .NET Development — MNET Academy (Nov 2023)

Microsoft MS-900 Fundamentals — Udemy (May 2023)

Web Development — Internshala (Dec 2021)

Python for Beginners — Sololearn (Nov 2021)

ADDITIONAL INFORMATION

Currently Learning: Full Stack Generative and Agentic AI with Python — Python, Generative AI, LLMs, AI Agents, Agentic AI, Prompt Engineering, RAG and AI Applications.

Volunteer Experience: Volunteer, Ottawa South Community Centre — Aug 2024–present; creating posters and flyers using HTML and CSS.
